What Is Heaven?

Heaven is a spiritual journey back to perfection in accordance to one's life experiences with the foundation of truths and the application of wisdom guiding the soul.
How can there be a physical heaven when a spiritual heaven does not exist first?
How can there be a spiritual heaven when the soul lives from fear, judgement, and the lack of understanding and not from faith and trust in God?
Heaven is the Word, the Word is love, and the Word is life. Heaven is a pathway, a journey, a yearning and goal through the challenges that constitute life.
An eternal existence in the application of the growth and progression in love.
